

CAMP MOZUMDAR NEWSLETTER

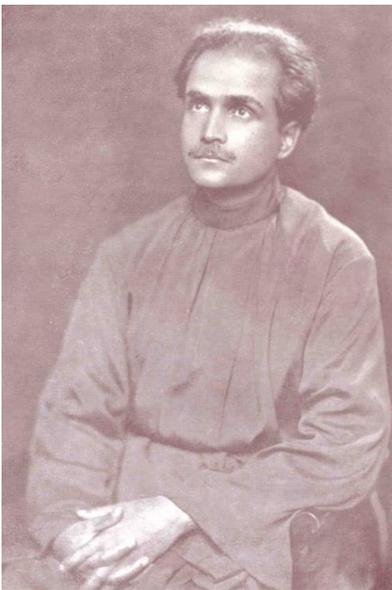

Newsletter for October 2014

A.K Mozumdar

“The people, things and conditions that are positive and that you create in your mind, are real. When you create in your mind, you are simply recognizing that which Eternally Exists in God.”

A.K. Mozumdar 1931

. If you would like to download some reading material by A.K Mozumdar you can go to Mozumdar.org where there are several books available in pdf format.

Camp Status

Water is still an issue as we need to raise \$10k to put in a water tank and pump to service the camp. The good news is that through the efforts of Michael Ginze, we now have water running at the Pillars of God for the first time in over 20 years! We are making progress overall with some setbacks along the way as we rediscover where underground water and electrical pipes have been hidden for years! It is all a part of the growing process as we all slowly put Camp Mozumdar back together! It is nice to see all of the different people that come out and want to help build a wonderful community retreat! We are getting ready for a major project at the Pillars of God. We need to use jack hammers to break up the walkways next to the pillars and then dig down to where the electrical pipes enter the pillars. The old pipes and wire will be replaced with new pipes and wiring so that we will be able to properly address all the electrical shorts now and any issues in the future. New junction boxes will be placed at ground level so that it will be easy to access wiring. We will also be running new large pipes where productions crews will be able to run cables for concerts or plays. We need to properly plan this activity to upgrade the pillars to be able to handle modern productions. After the concrete is broken up the digging will vary from a few feet towards the front to around six feet deep in the back! A rather large project!

We are also starting a trend where we fix pipes crossing the roads. We are adding extra water pipe lines along with AC and DC pipes to plan for future expansion. We will have all pipes set to cross at specific locations which will also be well marked so that we will be able to easily find these locations when necessary in the future.

Camp Mozumdar

Yet another Snag?

It is amazing how many things you discover when a place has not been maintained and there are few records and maps of where water and electrical lines are buried! We just discovered that the fire hydrants were dry and have been hunting down the problem with the water company. It appears this may be an old problem and will take some time to resolve. In the mean-time we had to cancel the October 4th festival and any large group activities as without fire-fighting capability, it becomes a real public safety issue! So we are now in the position of having to wait until next year for our first Grand event. Our goal is to have everything resolved so we will be able to start off the New Year with the safety concerns behind us! We were getting so close!!! It is probably a blessing in disguise because we really should take more time to plan events. This is something that several members of the Events Committee have mentioned before. It would also be nice to have more people involved on the committee that have connections to organizations that can participate!

Volunteers Wanted!

Volunteers are showing up and are donating a day or two here and there and the camp is transforming! We are still looking for people to be on committees to set the long term goals!

Looking for History!

We are beginning to put bits and pieces of information together such as we recently discovered from Tim Davis who ran the camp from around 1983 to 1990 that the plaques on the Pillars at the Pillars of God were missing before he got there. This means we need pictures of the Pillars that predate 1983 to discover what was on the plaques! If you have any old pictures of the camp, or any history, please send it to us. We have also been told that the Holy Place used to be a Holy Place for Native Americans but this is only known to us from hear-say! We are trying to find anything that exists in the way of pictures, stories, maps, plans, artifacts so that we can put together a comprehensive history to share with everyone that visits Camp Mozumdar. If you have any information or know anyone that does please encourage them to send us anything they have so we can capture what we can before it is lost forever!

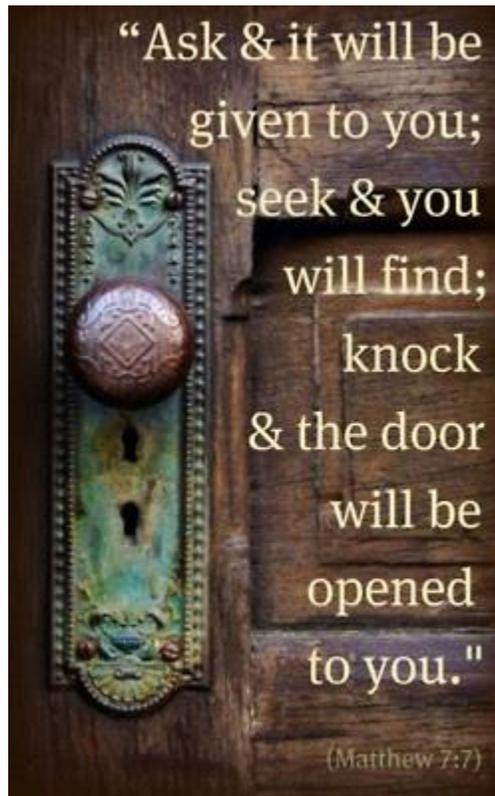

Are you an Angel?

you are traveling in a
wrong path

Creating a Place of Wonder and Joy

Camp Mozumdar represents a unique opportunity to build a place of Wonder and Joy. There already exist three unique attractions namely; the Temple, the Pillars of God and the Holy Place. These attractions represent a fraction of the over 105 acres that exist at the Camp and are waiting to evolve into a place of Wonder! Creating such a place takes the efforts of many people bringing together their ideas and realizing the gift that can be left behind for humanity. This is why we are looking for people that want to be on committees to help define the direction and organize the people and resources needed to make this happen. We are looking for mature and talented individuals that have the experience to lead and others that want to a part of making this happen. We envision a number of committees that will manage everything from the overall direction of the camp to individual projects. Some examples are the Picnic Bench Project. We would like to build and put picnic benches around the camp at different scenic view points where people can sit, have lunch and enjoy the views! We also need to plan trails, roads, a camping area, community gardens, solar and wind projects and much more! Of course we could really use a Donation Committee to help make this happen! If you would like to be a part of building this place of Wonder, contact us!

You are receiving this e-mail because you have shown interest in the future and activities of Camp Mozumdar.

You can end your subscription anytime by simply replying to this e-mail with UNSUBSCRIBE in the heading. I will immediately respect your wishes and stop sending you any further e-mails!
